

# Recommendations

This page contains recommendations for setting up a Shibboleth SP in the Tuakiri Federation.

## Dual Login

If you need to provide dual login (both a Tuakiri login option and custom username/password login option) for users, we recommend using the following text and logo to explain to users what the Tuakiri login entails:

Users from many NZ universities and CRIs can log in with their username and password from their home institution using Tuakiri.
<b>&lt;Log in button&gt;</b>

For the Tuakiri web logo, see [this link](#).

An example on how to set up dual login technically with Shibboleth (using "lazy sessions") can be found [here](#).
